EDUCATION

- **United College of Engineering and Research (UCER)** Prayagraj, India
Bachelor of Technology – Computer Science & Engineering (AI / ML); GPA: 8.0 July 2025 – June 2029
Courses: Operating Systems, Data Structures, Analysis Of Algorithms, Artificial Intelligence, Machine Learning, Networking, Databases

SKILLS SUMMARY

- **Languages:** C,Python,JAVA, JavaScript, HTML, CSS ,SQL
- **Frameworks:** Tkinter, Java Swing
- **Tools:** Git, GitHub, MySQL, SQLite, VS Code, NetBeans
- **Platforms:** Windows, GitHub
- **Soft Skills:** Leadership,, Problem Solving, Teamwork, Event Management, Time Management

EXPERIENCE

- **Python with Data Science Summer Training** Prayagraj, India
Trainee June 2026 – July 2026
 - Completed hands-on training in Python, Data Analysis, SQLite, and Tkinter GUI development.:
 - : -2pt Built mini projects using Python and applied data analysis techniques.
 - Worked with Pandas, NumPy, and data visualization fundamentals.:
- **Infosys Springboard** Online
Java Programming Trainee 2026
 - Completed Java Programming certification covering OOP, Collections, Exception Handling, and File Handling.:
 - : -2pt Strengthened problem-solving skills through coding assignments and practical exercises.
- **uHack 4.0 Hackathon** India
Participant 2026
 - Collaborated with a team to design and develop an AI-based solution.:
 - : -2pt Contributed to UI planning, idea validation, and technical implementation.

PROJECTS

- **Student Performance Analysis System (Python, Tkinter, SQLite, Pandas):** Developed a desktop application to manage and analyze student academic performance. Implemented CRUD operations, data visualization, search functionality, and a user-friendly GUI using Tkinter with SQLite as the backend database.
- **Browser History Simulation (Java, Data Structures):** Designed a browser history simulator using Java by implementing Stack and Linked List concepts. Supported operations such as Visit, Back, Forward, and History while strengthening understanding of data structures.
- **Personal Portfolio Website (HTML, CSS, GitHub):** Developed a responsive personal portfolio website showcasing projects, technical skills, certifications, and contact information. Hosted the portfolio using GitHub Pages.

HONORS & AWARDS

- Successfully completed AI & Data Science Certification from IIT Madras.
- Successfully completed Java Programming Certification from Infosys Springboard.
- Participant - uHack 4.0 Hackathon (2026).

LEADERSHIP & ACTIVITIES

- **Hackathon Participant** India
uHack 4.0 2026
 - Collaborated with team members to design and develop an AI-based project within the hackathon timeline.:
- **B.Tech Student** United College of Engineering & Research
Computer Science & Engineering (AI/ML) 2025 – Present
 - Actively solving Data Structures and Algorithms problems using Java and building real-world software projects.:
